SAEGU86.003APC

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : FUJITA, et al.
Appl. No. : 10/509,793
Filed : September 30, 2004
For : ESTER COMPOUND,
PLASTICIZER FOR
BIODEGRADABLE ALIPHATIC
POLYESTER RESINS, AND
BIODEGRADABLE RESIN
COMPOSITION
Examiner : Unknown
Art Unit No. : 1616

I hereby certify that this correspondence and all marked attachments are being deposited with the United States Postal Service as first class mail in an envelope addressed to: Office of Initial Patent Examination, Customer Service Center, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, on

October 11, 2005

REQUEST FOR CORRECTED FILING RECEIPT

Office of Initial Patent Examination
Customer Service Center
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicants noticed an error on the title of the filing receipt. The true title is **ESTER COMPOUND, PLASTICIZER FOR BIODEGRADABLE ALIPHATIC POLYESTER RESINS, AND BIODEGRADABLE RESIN COMPOSITION** as indicated on the first page of the present specification (a copy is attached) Presently, the Filing Receipt incorrectly shows the title as ESTER COMPOUND, PLASTICIZER FOR BIOEGRADABLE ALIPHATIC POLYESTE RESIN, AND BIODEGRADABLE RESIN COMPOSITION. Please issue a corrected official filing receipt to reflect the true title of this application. Please charge any fees for this request to our deposit Account No. 11-1410 if necessary.

Appl. No. : 10/509,793
Filed : September 30, 2004

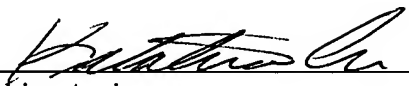

Enclosed in support of this Request are the following:

- (X) A copy of the Official Filing Receipt.
- (X) A copy of the first page of the specification.
- (X) Return Postcard.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP

FILING RECEIPT

OC000000016290079

Date Mailed: 06/23/2005

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Non-Publication Request: No

Early Publication Request: No

Title

Ester compound, plasticizer for biodegradable aliphatic polyester resin, and biodegradable resin composition

Preliminary Class

552

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control,

Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

DESCRIPTION

ESTER COMPOUND, PLASTICIZER FOR BIODEGRADABLE ALIPHATIC
POLYESTER RESINS, AND BIODEGRADABLE RESIN COMPOSITION

5

TECHNICAL FIELD

The present invention relates to an ester compound for use as a plasticizer for biodegradable aliphatic polyester resins to be used in films, sheets and like molded articles that require flexibility, and a plasticizer for biodegradable aliphatic polyester resins that comprises the ester compound. The present invention also relates to a biodegradable resin composition comprising the plasticizer, and more specifically, a biodegradable resin composition that has excellent water resistance and that can be molded into an article from which the plasticizer is difficult to migrate (bleed out) to the surface.

20

BACKGROUND ART

Biodegradable and other naturally degradable polymers have been attracting attention from the viewpoint of environmental protection. Researchers are therefore conducting active research on poly(lactic acid)s, copolymers of lactic acid and other aliphatic
